Geotech drillings amazing compact CPT rig is the smallest 20-ton CPT machine in NZ. Our 2020 CPT-223 features unique folding anchoring mast systems, allowing increased manoeuvrability in tight spots along with fast setup and anchoring.

This compact and powerful CPT rig will fit through the tightest of openings but still provide the high pushing power needed to CPT to the depths our clients require.

This rig is transported with a 4wd and trailer keeping costs down.

FEATURES

- 200kn of push pull power
- Remote tracking
- Rubber tracks for reduced marking on sensitive surfaces
- 40m+ pushing rods
