

SRS ML DUO

TECHNICAL SPECIFICATIONS

TRANSPORT LENGTH : 8.4m

TRANSPORT WIDTH : 2.1m

TRANSPORT HEIGHT : 2.95m

WORKING WIDTH : 3.5m

**WORKING HEIGHT
(MAST RAISED VERTICALLY) :** 8.45m

WEIGHT : 8.5 ton

Geotech Drillings flagship Drill Rig the SmallRotoSonic DUO, True 150Hz sonic drilling rig is equipped with a SmallRotoSonic drill head as well as a four speed rotation head. You can easily switch from Sonic drill head to a rotary head by shifting the trolley board, which allows you to combine Sonic sampling and diamond core drilling in the same borehole.

FEATURES

- Small and manoeuvrable rig
- Equipped with a SmallRotoSonic drill head and a four-speed rotation head
- Easy change between both drill heads
- Superior sample quality of both alluvial soils and rock
- Manipal Rod Handler
- Tooling diameter between 50-150mm
- 30-40m Sonic drilling
- 150-200m HQ
- Auto SPT hammer
