

GEOMIL PANTHER CPT RIG

TECHNICAL SPECIFICATIONS

LENGTH : 5.2m

WIDTH : 2.45m

HEIGHT : 2.95m

**WORKING HEIGHT
(MAST RAISED VERTICALLY)** : 3.75m

WEIGHT : 15ton

Geotech Drillings 2022 Geomil Panther is ultra-compact, fully ballasted and completely enclosed, track mounted Cone Penetration Testing (CPT) rig. This rig is designed for conducting CPT's and sCPT's on any terrain as the track system guarantees traction under the harshest of conditions paired with the lowest possible ground pressure. This, combined with its deadweight (15ton), results in unmatched efficiency. Due to the compact design it is easy to transport on its dedicated transport truck for establishments NZ wide.

FEATURES

- 200kn of push pull power
- Remote tracking
- Plastic coated tracks for reduced marking on sensitive surfaces
- Extra wide tracks for soft ground conditions
- sCPT with same day processing of results
- 40m+ pushing rods
- 20m casings
