Geotech Drilling offers two 8D core drills, after the success of their original drill in 2018, Geotech purchased another in 2023 to keep their fleet modern and reliable, The 8D is a powerful, versatile core drill despite it's tight access footprint. With remote tramming and rubber tracks it's perfect for big jobs on tight access sites.

FEATURES

- Small and manoeuvrable rig
- Remote tracking
- Rod rack and safety cage fitted
- 100-150m PQ
- 200-250m HQ
- Auto SPT hammer
